## CERTIFICATIONS

- **CySA+**
- **Security+**
- **CCNA**

## SKILLS

- **Security operations** (Splunk/ELK, log analysis, alert triage, IR basics)
- **Networking** (Cisco, GNS3, Wireshark, VPN, OPNSense, TCP/IP, DNS, HTTP/S)
- **Operating Systems** (Linux, Windows Server, AD)
- **Automation** (Python, Bash - parsing, enrichment, reporting)
- **Virtualization** (Proxmox)
- **AI** (local LLMs & APIs)

## LANGUAGES

Hebrew - Native

English - Native-level

Arabic - Conversational

## PROFESSIONAL OVERVIEW

**CySA+, Security+ and CCNA** certified SOC-oriented security practitioner, with hands-on experience in **SIEM monitoring, log analysis, packet inspection, incident triage** and **automation**. I use my Proxmox-based homelab to practice and implement security concepts, networking, detection and DFIR. Former legal translator with strong analytical skills, seeking **SOC / DFIR** roles.

## HANDS-ON EXPERIENCE AND PROJECTS

- **Cybersecurity homelab:** Designing, operating and securing a multi-segment network environment, including VLANs, OPNSense, packet capture and analysis and firewalls, with integrated SIEM tools (Splunk, Nessus) for log ingestion, alert review and investigation, anomaly detection and event analysis. DFIR and pentesting exercises (Metasploitable2, Kali, ParrotOS), Linux and Windows Server/AD, security engineering (hardening, jump server, firewall rules), automation (Python, Bash) and more.
- **Homelab toolkit** – Developing bash and python-based solutions for homelab management and networking, automating host discovery, remote access, documentation etc.
- **LoPTA - Log Parser and Triage Assistant:** A Python automated log ingestion and triage tool designed to support SOC operations, comprising two parts: 1. Regex-based log parser, 2. AITA - AI Triage Assistant powered by local or cloud models. Uses Pandas, Ollama,

## WORK EXPERIENCE

### 2008 – Present | Legal Translator

Independent & The Bilingual Company for Legal Communication Ltd.

- Translated complex legal and business documents for leading law firms and major corporations. High attention to detail and quality.
- Established and managed a successful translation business, providing first-rate translations.
- Led the integration of computer-aided translation and AI tools.

### 2010 – 2018 | Independent Astronomy Guide

- Guided astronomical tours for groups and individuals, with telescope observations, lectures and activities.

### 2014 – 2015 | Independent Website Builder

- Built and maintained WordPress websites.

## EDUCATION

- **Ongoing | NegevTalent Cyber Security Course, Elevation** Networking • Windows Server, AD and Linux • Web • Penetration testing • Malware analysis • SIEM
- **Ongoing | Online Cybersecurity Courses and Homelab** Hands-on training through Cisco NetAcad, TryHackMe, Udemy and other platforms.
