CERTIFICATIONS

- **CySA+**
- **Security+**
- **CCNA**

SKILLS

- **Security operations** (Splunk/ELK, log analysis, alert triage & investigation, IR basics)
- **Detection** (Suricata, Snort, Zeek, YARA)
- **Security frameworks** (MITRE ATT&CK, Cyber Kill Chain, OWASP Top 10)
- **Networking** (TCP/IP, DNS, HTTP/S, Cisco, Wireshark, VPN, OPNSense)
- **Operating Systems** (Linux, Windows Server, Active Directory)
- **Automation** (Python, Bash, Ansible - parsing, enrichment, reporting)
- **Infrastructure** (Proxmox, Docker, Kubernetes basics)

LANGUAGES

Hebrew - Native

English - Native-level

Arabic - Conversational

PROFESSIONAL OVERVIEW

CySA+, **Security+** and **CCNA** certified SOC-oriented security practitioner with hands-on experience in SIEM monitoring, log analysis, detection, incident triage and investigation. Experienced in log correlation, MITRE ATT&CK mapping, networking, and automation. I operate a Proxmox-based homelab to simulate attacks and develop detection workflows. Strong communication, documentation and reporting skills. Seeking **SOC** / **MXDR** roles.

HANDS-ON EXPERIENCE AND PROJECTS

- **Cybersecurity homelab:** Design and operate a segmented lab simulating SOC workflows, with centralized logging (Splunk), network monitoring (Suricata, Zeek), and automated log parsing and enrichment (Ansible). Performed alert triage, log correlation, and attack chain reconstruction from network and endpoint data.
- **LoPTA – Log Parser and Triage Assistant:** Python-based log analysis tool, with AI-assisted triage. Generates investigation-style reports with automated enrichment.
- **Sroq:** CLI-based vulnerability reporting tool (Nmap + Vulners) with structured risk scoring and exportable reports (JSON/CSV/XLSX).

WORK EXPERIENCE

2008 – Present | Legal Translator, Copylawyer / Freelance

- Translated complex legal and business documents for leading law firms and corporations, maintaining high accuracy and attention to detail and quality.
- Established and managed a successful translation business with high-profile clients.
- Led the integration of computer-aided translation and AI tools.

EDUCATION

- **2025 – 2026 | NegevTalent Cyber Security Course, Elevation**
  Networking • Windows Server • Active Directory • Linux • Web • Penetration testing • Malware analysis • SIEM
- **Ongoing | Online Cybersecurity Courses and Homelab**
  Hands-on training through Cisco NetAcad, TryHackMe, Udemy, Portswigger Academy and other platforms.
